

Calligram Step-By-Step

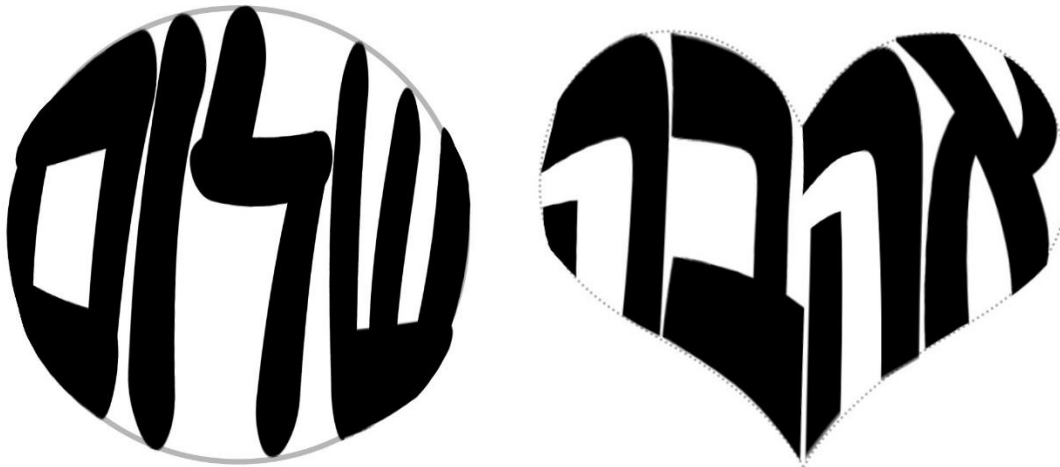

Step 1: Draw your shape outline.

Step 2: Make your letters out of clay or pipe cleaners. Lay them over your shape.

Step 3: Stretch, squish, and move the letters around to fit inside the outline.

Step 4: Trace around the letters on your paper, making the outlines as neat as possible.

Step 5: Use the drawing as a guide to make the same design on your Scratch Board!
